Obstacles to providing these services include: the needs exceed available funding to address crime prevention, transportation services, youth, senior citizen and health care services; the difficulty in accessing needed technical and business organization assistance and funds, in the case of child care providers; and access to information and training for employment services.

a. Statement of Specific Objectives - CH 10 - 2

Long term objective is to provide affordable and safe child care for the children in metropolitan Bakersfield who need supervision/care while parents are at work. Support the development of a special loan fund to assist in start up and expansion of licensed facilities.

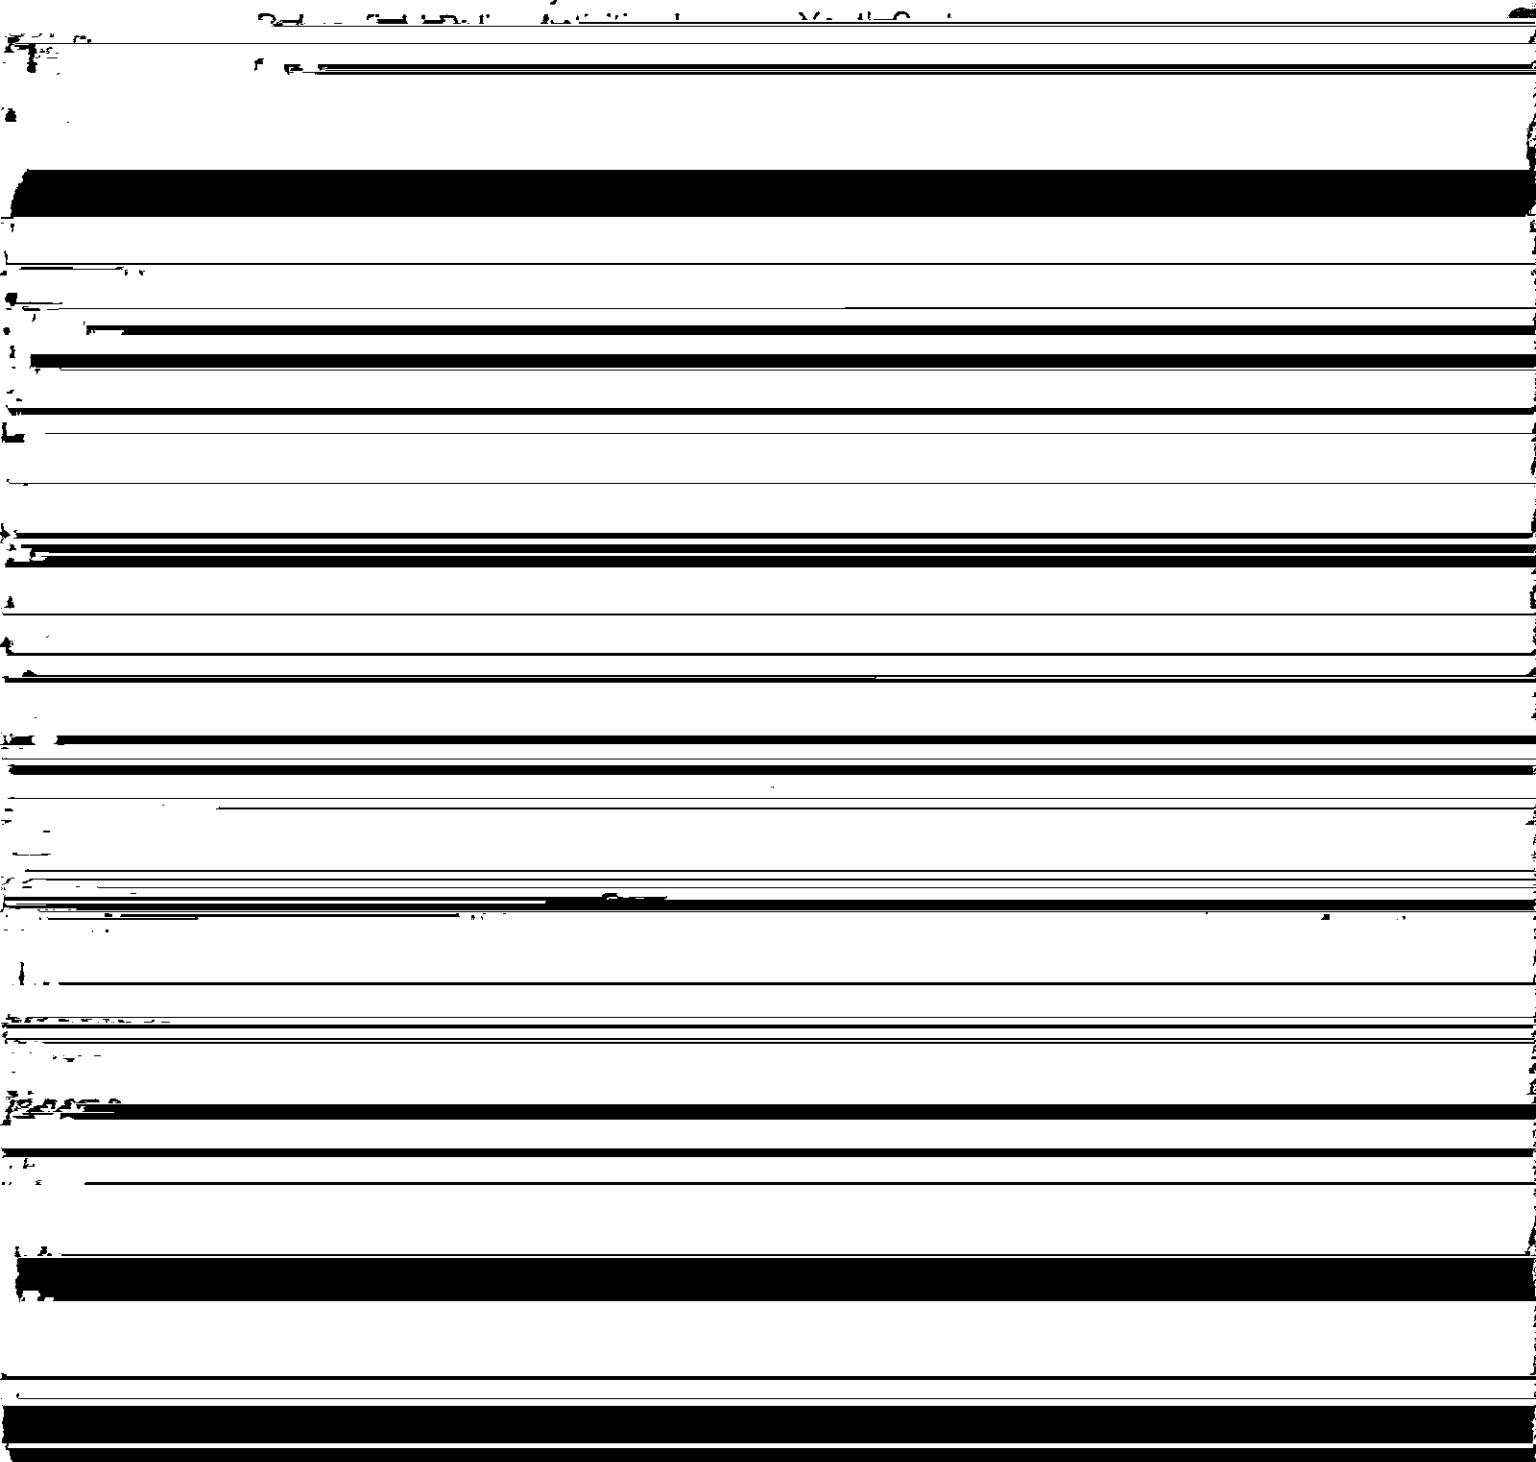

~~the Old Town Kern-Pioneer Redevelopment Project, the Southeast Bakersfield~~

Redevelopment Project, the new Implementation Plan for the Downtown Redevelopment Project, the Master Plan for Recreation and Parks and the Downtown Drainage Study.

The Old Town Kern-Pioneer Redevelopment and the Southeast Bakersfield Redevelopment Project areas went into effect on July 28, 1999. The new five year Implementation Plan for the Downtown Redevelopment Project was adopted in February, 2000. The three implementation plans identify possible future projects in each area (cost estimates were not included). The three plans cover almost all of the City's low-income areas.

The draft Master Plan for Recreation and Parks was submitted for review and comment in December, 1999. The plan identifies possible future projects in the City ~~including the low-income areas (cost estimates were not included)~~.

assistance in order to start-up or build capacity in their licensed family child care homes to ensure success and staying power. Support and technical assistance include: assistance with zoning/licensing issues; training and education including general business training; technical assistance with loan applications; and management consultations.

The following is a statement of the requirements to start a licensed ...

## Characteristics of Child Care Friendly Ordinances

The Government Planning Task Force (the Committee) recognizes that drafting a single zoning ordinance related to child care centers (Centers) is not a practical objective given the varying structure of zoning ordinances among municipalities. As the goal of the Committee is to minimize barriers to development of child care facilities, the Committee has developed
