Are the
changes
to the
development
requirements
for Family
Child Care
Centers?

- Family Child Care Centers should be fenced play areas. The following are some suggestions to help ensure the safety of the play area:
- Allow as much open space as possible (not covered or some other structure) to be that same as the play area.
 - Allow as much open space as possible.
 - The child care center should be fenced including the play area.
 - Include one gate to the play area.
 - Provide a watch tower or guard house.
 - If possible, include a copy machine for the play area.
 - Offer a covered area for the play area.
 - Include a gate to the play area.
 - If the project is a play area, careful consideration should be given to the following issues:

Location of the play area is important – both for parents and for the children. The location of the play area should be in a safe area, away from traffic, and should be easily accessible to the children. The location of the play area should be in a safe area, away from traffic, and should be easily accessible to the children. The location of the play area should be in a safe area, away from traffic, and should be easily accessible to the children.
