

Goals

Professional development goals (Monica)

I joined CFL to learn to become a servant leader and to improve my knowledge and awareness of SCCOE's leadership philosophy.

My hope was to enhance my performance in my current position and to enhance my leadership skills for future advancement.

Professional development goals (Evan)

CFL was an actionable item from my last review.

What I hoped to take away from the program was a better understanding of the COE's Management culture and goals.

Project goals
