# CALLING ALL role models

Working at our camps takes a special kind of person! Staff members are selected for their relevant skill and experience, their passion, and willingness to create a supportive environment for children, their ability to help deliver an overall quality camp experience, and their sense of professionalism. It is expected that all staff will support the beliefs and principles of the Girl Scout organization. In a safe and fun environment where all campers and camp colleagues are encouraged to learn and grow.

**CAMP BOTHIN**  
Just over the Golden Gate Bridge, Bothin is closest to a town, has the most modern facilities and accommodations, and serves predominantly younger, first-time campers. The weather is comfortable in the summer, usually in the 80s.

**CAMP HIDDEN FALLS**  
Surrounded by giant California Redwoods, Hidden Falls is nestled in the heart of the Redwood Mountains near Sausalito. A short hike reveals two swimmable waterfalls. The weather is refreshingly warm in the summer with cooler nights.

**CAMP SUGAR PINE**  
Our furthest camp is nestled in an alpine setting, and is surrounded by tall pines that usually drop to 40 degrees at night.

**Where do staff live?**  
Staff live in units with a group of campers in a staff unit. The units are located in a hammock village depending on the location. Some units do not have electricity and bathrooms are located a short walk away.

Camp staff are Youth Development Professionals. We provide a comprehensive 12-day training session prior to the start of camp. This time is spent orienting our team to all aspects of camp and the job, including understanding emergency procedures. We also spend time on personal development, innovation and design.

This summer will bring us a new and exciting daily schedule at camp, including some job responsibilities, new or different available positions, and day-to-day projects on our Adventure Pod. Please visit [camp.girlscout.org](http://camp.girlscout.org) for more about our 2021 Adventure Pod programs.
